

Advancement : Perseverance : Success !!

All goes gradually forward for the shift in my activities this coming Chinese New Year

- 1) I have found a suitable locale ... just to discuss details, sign contract.

Now, this was the shop locale which I had seen in my mind some years ago as the place of my clinic if I went into town 🧙 (wizard)

- 2) The wonderful angel 😇 Inger, the colleague with whom I will set-up the clinic, is dealing with all social and practical aspects. Thank you ... I am so hopeless in fixing things in Swedish society.

Interestingly, the first time I visited to her for treatment, she had the vision that we would share a clinic together 🧙 (witch)

- 3) The new clinic has a teaching space 🧙; so that I can begin share out knowledge; as in

- 4) 9 stage education over 10-12 years : Health, Longevity and Immortality.

A synthesis of my studies during the last 30 years; focus from the 10 year teachings from Jeffrey Yuen since 2010: <http://jadepurityfoundation.org/master.html>

The structure for the course starts to form in my head, following the theme of the `Science of Longevity` remembering that the Daoists are the tradition who studied and developed this knowledge. I will be seeking a small group formed of those dedicated to experience gradual change and `immortal health` 🧙.

- 5) Plan a range of other shorter classes and special Qi Gong e.g. 24 Solar Qi Dao Yin (Daoist Yoga)

- 6) Dec 20, Winter Solstice; I will take free until after (Chinese New Year), so I can

- a) begin preparation of my own health & awaken old structures and exercises to teach you;
- b) make the website
- c) begin the education through articles , so write, write, write.
